( *Tongji University* )

报告题目:

**Numerical solution for American  
option pricing**

邀请人: 任志茹 博士

报告时间: **2013 年 7 月 11 日 (周四)**

**下午 16:00-17:00**

报告地点: 科技综合楼三层 **311**

计算数学所报告厅

## **Abstract:**

**Numerical solution method based on high-order compact (HOC) finite difference scheme is proposed and analyzed for pricing American options. Then, modulus-based successive over-relaxation method is considered for solving the linear complementarity problem. A number of numerical experiments are further presented to show the efficiency of proposed method.**
