报告题目:

ODE inverse problem and its simulations

邀请人: 刘亚锋 博士

报告时间: 2015年8月25日(周二)

下午 16:00~17:00

报告地点: 科技综合楼三层

311 报告厅

Abstract:

In this talk, we will briefly introduce the ODE inverse problem and existing method to solve it. Then we will discuss a seemingly easy and straightforward question: How to generate a good simulation data to test the algorithms. This is still an open problem in this field.
